THURSDAY EVENING, OCTOBER 27.

LOCAL NEWS.

For this section warmer, fair weather, preceded by light rains in southern Virginia, light to fresh variable winds.

DEMOCRATIC MEETING.—The first democratic mass meeting of the campaign was held last night at the Opera House and was under the auspices of the Young Men's Democratic Club. Mr. J. S. Barbour, Thompson, president of the club, presided, and Judge Charles E. Stuart introduced Hon. Charles T. O'Ferrall, the speaker of the occasion. Mr. O'Ferrall commenced by eulogizing the democratic party showing that from its formation to the present time it had been the party of the people and the one opposed to oppression. He then discussed the question of the tariff and illustrated its workings, showing how unjustly it operated on the consumer. He read a list of articles of every day use on which there was a tax and clearly demonstrated how much cheaper they could be purchased if the high and unnecessary tax did not go into the U. S. treasury where it was now being hoarded. He said the democratic party was not a free trade party and that there could be no such thing as free trade in this country, as millions of dollars had to be raised to run the government and had to be raised by a tariff, but the democratic party was the party of the people and the one opposed to oppression. The capital stock of this company is \$625,000, divided into 625,000 shares of \$1 each.

The company is incorporated under the laws of West Virginia, and the stock is non-assessable, and carries with it no personal liability to the holder.

THE GOLD MINING COMPANY (location, Music Mountains, A. T.) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wiswell mill, capacity 20 tons per day, with powerful machinery, has been purchased and will be on the ground ready for erection at the mine within the next thirty days.

The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence of the public, and the stock has steadily advanced in selling value. Within the last few days bona fide sales have been made AT PAR.

There is no better stock on the market for a permanent investment. For full information in regard to this Mine apply to the
